Check out the BCPGA Conference:
 Maintaining the Momentum:
 Sustaining Initiatives in Older Adult
 Mental Health
 Friday April 24, 2015
 Cost for Physicians:
 • \$100 – members
 • \$145 – non-members
 See www.bcpga.com

Objectives:

The physician learner will be able to:

- Carry out their role as part of the inter-professional team with respect to PIECES assessment of dementia-related responsive behaviors in older adults
- Utilize the PIECES 3 question approach in assessment and intervention planning for dementia-related responsive behavior
- Use the BC Behavior and Psychological Symptoms of Dementia interactive web-based algorithm to provide assessment and treatment for dementia-related responsive behaviors
- Appropriately prescribe medication in the treatment of specific dementia-related responsive behaviors
- To provide the facilitators with feedback on this pilot workshop
